## Message from the Leadership Team

Over the last few weeks, our in-person and virtual students completed MAP testing in Math, Reading and Reading Fluency. Our virtual students had the opportunity to come in person for testing. It was so nice to hear the excitement in their voices as they greeted their teachers and classmates in-person. MAP data is so important because we use this data to measure our campus goals for individual student growth and overall progress in each content area. As a campus, our students have shown tremendous growth on MAP Assessments throughout this school year. We could not have done this without the support of all of our parents, teachers and of course, our NCE Sparks!

Ms. Mosley.
